Olzhas Azirali

has successfully completed the online Specialization

Hands-on Internet of Things

This specialization is intended for everyone who is interested in getting to know the latest in ubiquitous networking, also known as "Internet of Things". The specialization consists of 4 courses that are very hands-on, as large parts of the experience consist of physically assembling a networked device. The courses are meant to be taken in sequence, as each course builds on the previous one, adding more functions to the device.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
