3 Courses

Hardware and Operating System Foundations I

Hardware and Operating System Foundations II

Introduction to Open Source Software

Aug 20, 2026

Olzhas Azirali

has successfully completed the online Specialization

Mastering Operating Systems

This specialization provides comprehensive training in Microsoft Windows, Linux, and Open Source operating systems. Covering installation, configuration, and security fundamentals, it equips IT professionals with essential skills for effective system administration. Participants gain hands-on experience with both platforms, mastering system setup, user management, networking, and security implementation.

Kevin Vaccaro
Adjunct Industry Professor, Information Technology and Management

Jeremy Hajek
Industry Associate Professor
Information Technology and Management, College of Computing

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
