EDUCBA

Oracle Certified DBA & IT Instructor

Olzhas Azirali

has successfully completed the online Specialization

Oracle DBA 21c: Master Database Administration

In this Specialization, learners developed and mastered critical Oracle DBA 21c skills, including database architecture, SQL and user administration, storage management, performance monitoring, and enterprise security. The program emphasized advanced competencies such as RMAN backup and recovery, data migration with SQL*Loader and Data Pump, and Oracle 21c innovations like blockchain tables and automatic indexing. Learners also applied their knowledge through hands-on projects that simulated real-world database administration tasks, preparing them for professional DBA roles and certification readiness.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
