EDUCBA

Olzhas Azirali

Senior Oracle PL/SQL Developer & Database Consultant

has successfully completed the online Specialization

Oracle PL/SQL 21c: Programming & Triggers

In this Specialization, learners mastered Oracle PL/SQL 21c programming, developing skills to design, implement, and optimize database applications. They gained expertise in subprograms, packages, triggers, and exception handling while applying Oracle-supplied utilities to solve real-world challenges. Through hands-on projects, learners built scalable, reliable, and industry-ready PL/SQL solutions, preparing them for professional roles in database development and Oracle application programming.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
