Olzhas Azirali

has successfully completed the online Specialization

Mastering Windows Server 2025

Congratulations on completing the Mastering Windows Server 2025 Administration Specialization. You demonstrated proficiency in managing, securing, and automating Windows Server environments. You developed skills in installing and configuring core services like Active Directory, DNS, and DHCP, and managing network, security, and resource practices. You also mastered automation tools, including PowerShell and Containers, to streamline server administration. These competencies are critical for advanced server management and system optimization in enterprise environments.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
